

**ROGAHI**

Every young adult needs someone who serves as guide and example in the uncertainty and decision-making of early adulthood.

For your knowledge that has enlightened us  
For your ideas that have enriched our lives  
For your strength that has given us courage  
For your encouragement that has helped us to achieve  
For your dependability that has given us faith in others  
We thank you and dedicate the 1973 Rogahi to you,

MR. JERRY GROSECLOSE

# *In Remembrance*

Mrs. Ada Simpkins

Life is but a garden  
In which we plant the seeds  
Of hope and love and tenderness,  
Of kindly thoughts and deeds—  
And when the sun has risen  
And the seeds begin to grow,  
They flourish in our dear ones  
Because we love them so . . .

But when the sun has settled  
Beyond the distant hill  
And the tender blooms have vanished  
With the dear heart that is still,  
We must keep the garden blooming  
With courage, faith and trust,  
Till again we meet our loved ones  
In the heavens, as we must.

**In 1882 Edison had a great idea - - and it wasn't the electric light!**

The whole idea of investor-ownership of electric light and power companies began when Thomas A. Edison and a group of investors financed his first power plant more than 80 years ago.

Since then, investor-owned companies like ours have become an integral part of America's Free Enterprise system. That explains why today we have at our fingertips more electric power than any other country in the world.

And it's this same Free Enterprise system that puts at *your* fingertips greater opportunity, greater expectation for success than can be hoped for by any other young people in the world.
